International Studies

Faculty: Bender, Director; Chartock, Compte, Gross, Hutton, Lillevik, Lowi, Monseau, Mi, Paces, Potter, Sow, Toloudis, Wright

International Studies is an interdisciplinary field of study that examines the global forces (political, historical, cultural, and societal) that shape the world in which we live. It is based on the conviction that historically informed and politically aware students with knowledge of more than one language will be able to think more critically and act more responsibly in a shrinking world. Students who successfully complete this major improve their opportunity for further study in graduate or professional school and careers in government service, private enterprise, international governmental and non-governmental organizations, non-profit education, research and advocacy organizations, and teaching.

Requirements for the Major

Twelve total course units are required for the International Studies major. Each student completes five courses as part of the major core and seven courses in an area of specialization. The courses for the specializations are drawn from across the Humanities and Social Sciences as well as the School of Business. Only one course at the 100-level may be counted toward a specialization.

The Major’s Core Requirements include:

- INT 200: International Studies – Processes, Themes, and Issues
- ECO 102: Principles of Macroeconomics
- INT 498: Senior Seminar
- 2 units of a Foreign Language at the 200-level or above, relevant to the chosen specialization

The Specialization Options include:

- Diplomacy
- International Trade and Economics
- Global Health, Development, and Environment
- Asian Studies
- African Studies
- Chinese Studies
- European Studies
- Latin American and Caribbean Studies
- Middle Eastern Studies
Course requirements differ by specialization; please see below or consult the academic requirements report in PAWS. As part of the liberal learning requirements, it is recommended that students take microeconomics (ECO 101) and statistics (STA 115).

Study abroad is an important component of the major. Students are required to demonstrate at least one semester of successful academic achievement in a foreign university relevant to their field of study. A full year of study abroad is encouraged. Successful study abroad is defined as passing at least three classes for a minimum of 2.25 TCNJ units. Please consult your International Studies advisor and the Center for Global Engagement for the most suitable site and program.

Elective courses in the major must have an international focus, complement the student’s area of interest within the major. Students are also encouraged to pursue an internship with an international focus.

Program Entrance, Retention, and Exit Standards

Every major program at the College has set standards for allowing students to remain in that program, to transfer within the College from one program to another, and to graduate from a program. The following are the standards for international studies:

- Retention in the program is based on the following performance standards in these “critical content courses”: a grade of B- in a 200-level language course and in INT 200 International Studies: Processes, Themes, Issues.

- Transfer into the program from another program within the College is based upon the following performance standards in this “foundation course”: a grade of B- in the first language course taken.

- Graduation requires a GPA of 2.0 in courses for the program and a minimum grade of B- in a 200-level language course and in INT 200 International Studies: Processes, Themes, Issues.
