

Elementary and Early Childhood Education-1

Elementary and Early Childhood Education

Faculty: Beyers, *Chair;* Ammentorp, Burroughs, Carroll, Conte, Dell'Angelo, Eberly, Heddy, Hinitz, Hornberger, Joshi, Kim-Bossard, Leake, Madden, Mawhinney, Pan, Prince, Thompson

The Department of Elementary and Early Childhood Education offers two undergraduate majors: elementary education and early childhood education. It also offers an integrated five-year program for students interested in urban education that culminates in a master's degree and eligibility for either early childhood or elementary certification and ESL certification. All programs offer a sequence of course work in the theory and practice of education and provide students with field experiences. Early childhood education students who successfully complete their program are certified to teach pre-kindergarten through grade six. Elementary education students who successfully complete the elementary education program are certified to teach kindergarten through grade six. Any students who qualify and may be interested in teaching in grades 5-8, may seek an endorsement for middle school certification in addition to the elementary certification. Students who are interested in teaching grades K-2 are best served by enrolling in the Early Childhood major. All programs and all courses reflect state and national standards, with special emphasis on the New Jersey Common Core and Next Generation Science Standards. Any student seeking additional endorsements or teaching certificates beyond what is specifically awarded by their academic program should contact the State of New Jersey Department of Education directly for details about any additional courses or standardized tests that may be required.

For admission to the department, students must apply to The College of New Jersey and select a professional program major of either Elementary or Early Childhood Education or the five year Urban Education program. They must also select a second major. The choices are: art, biology, English, history, mathematics, music, psychology, sociology, Spanish, iSTEM (Integrative-STEM Education), or women's and gender studies. [Note: psychology and sociology are not considered "teachable majors" in New Jersey.] Students may also develop an interdisciplinary Self-Designed Major. Consult the section of this Undergraduate Bulletin for the requirements for the Self-Designed Major. Students choosing the Self-Designed Major also must meet the NJ State Standards for Teachers. Students who wish to explore this option should meet with the chair of the Elementary/Early Childhood Department as well as the coordinator of the Self-Designed Major.

Elementary and early childhood teachers must have a broad academic background as well as practical understanding of the early childhood and elementary school curricula. Therefore, along with their two majors, students must take a range of liberal learning courses to deepen and expand their knowledge base. In addition, the courses of study for both the elementary and early childhood programs include the following field experiences:

1. The Foundation Courses: Child and Adolescent Growth and Development, Literacy, Math and Science methods; each include a full-day classroom practicum. Students in the Early Childhood program have an additional course that includes opportunities to visit, observe, and work in early childhood (Pre-kindergarten) settings.
2. The Advanced Core Block (ACB) builds on the basic material offered in the Foundation courses and includes work on differentiating instruction, integrating technology, long-term curriculum planning, reading across the curriculum, and teaching for social justice. Admission to ACB occurs when a student completes specific courses, has at least a 3.0 grade point average, and is recommended by his/her advisor for advanced work. In addition to the G.P.A. requirement, students must also demonstrate minimum proficiency on a State approved test of basic skills, such as the S.A.T., ACT, or Praxis Core (not the same test as the Praxis I & II). For more information, please contact the certification office on campus or visit our website.
3. The student teaching experience provides seniors the opportunity to participate in a full semester of supervised classroom teaching. Admission to the student teaching semester

Elementary and Early Childhood Education-2

requires a minimum GPA of 3.0 prior to the start of the semester. Students generally are clustered in small groups at professional development school sites located within a 30 mile radius of the College. Students need to provide their own transportation to these sites. Global student teaching is also available during either the fall or spring semester of a student's senior year. Student teaching is available in such locations as South Africa, Spain, Croatia, Italy, France, Switzerland, the Hague, and Thailand. The global teaching program is jointly supervised by faculty from The College of New Jersey and the host institution. Acceptance for student teaching assignment in all teacher education programs requires a 3.0 GPA and a qualifying score on the Praxis II content area test that aligns with the student's certification area.

Transfer Students (from other colleges and universities)

The elementary and early childhood programs are sequential in nature and structured with courses offered only during certain semesters. Additionally, transfer students must also choose a second major and satisfy all requirements for the courses in that sequence. Potential transfer students must realize that this may prolong their programs by at least one year in some cases. Transfer students who are accepted into the program must schedule courses with advisement of the program coordinator or the department advisor assigned to you. Outside transfers must complete an admissions process through the College admissions office. Departmental review of external transfer applications occurs immediately subsequent to the date published by the College.

Early Childhood Education

Effective early childhood teachers must have an extensive background of knowledge. In addition to providing the specific training for a teacher of young children, the College seeks to enable each teacher candidate to acquire a liberal education. The early childhood specialization courses are designed to increase knowledge in specific areas as well as to prepare for future teaching. Students take early childhood education courses that allow them to observe and participate in pre-schools and in elementary classrooms in a variety of diverse school settings. During these courses, students learn about children's literature and child and adolescent development, and develop skills in the teaching of math, science and literacy. In their junior year, they take advanced pedagogy courses in literacy, social studies/multicultural education, and integrated learning. In their senior year, they student teach under the guidance of a classroom teacher and conduct an inquiry project related to their classroom experience in conjunction with their senior capstone seminar. Some students elect to do part of their senior student teaching abroad in our Global Student Teaching Program. Students who are interested in this global program must submit an application during their junior year. During all course work and field experiences, students participate in activities and gain experience in planning, organizing, and directing the learning experiences of young children. Students should consult with their departmental advisors in both the education and second major departments in planning their programs. These plans should take into account requirements for the second major, liberal learning, the professional education major, and state certification. The department requires that students visit both the education advisor and the second major advisor each semester. This is the responsibility of the student, as requirements and course offerings are subject to change.

Program Entrance, Retention, and Exit Standards: Early Childhood Education

Every major program at the College has set standards for allowing students to remain in that program, to transfer within the College from one program to another, and to graduate from a program. The following are the standards for Early Childhood Education:

- Retention in the program is based on the following performance standards in these "critical content courses": A grade of C or better is required for all pre-requisite courses: MAT 105 and 106, PHY 103, and BIO 104. A grade of C+ or better is required in ECE 102, ECE 201, ECE 202, RAL 222, MST 202, and MTT 202. A

Elementary and Early Childhood Education-3

minimum grade of C+ is required for all components of ACB (ECE 301, SOM 203, and RAL 322) and Senior Student Teaching (ECE 490 and ECE 498). Admission to Advanced Core Block requires a 3.0 GPA, the recommendation of the student's advisor, and successful completion of the following courses as required by your coupling of majors: MAT 105, MAT 106, PHY 103, BIO 104, ECE 201, ECE 202, RAL 222, ECE 102, MST 202, MTT 202, and three courses from the student's second major. In addition to the G.P.A. requirement, students must also demonstrate minimum proficiency on a State approved test of basic skills, such as the S.A.T., ACT, or Praxis Core (not the same test as the Praxis I & II), prior to being enrolled in ACB.

- Students who have taken any of the above courses two times without earning the requisite grades may be dismissed from the program. Any course being used as a departmentally approved substitute for one of the above required courses must also meet the minimum grade requirement, including transfer credit.
- Transfer into the program from another program within the College is based upon the following performance standards in these foundation courses: A grade of C+ or better in ECE 102 and ECE 202. They must also achieve a GPA of 2.5 and the required grade in the foundations and critical content courses in the second major.
- Admission to student teaching requires a GPA of 3.0 prior to the start of the student teaching semester and satisfactory ratings on the Teacher Performance and Teacher Dispositions Assessments. In addition, all students must be in compliance with the professional standards as outlined in the Teacher Dispositions Rubric.
- Graduation requires a GPA of 3.0; completion of all courses in the education major; completion of all courses and meeting all standards in the second major; and fulfilling all liberal learning requirements and the completion of a minimum of 32 course units. Students must attain a minimum of C+ in student teaching to be eligible for a teaching certificate.

The Department of Elementary and Early Childhood Education maintains the right and the responsibility to dismiss students from the major who have not made satisfactory progress completing the major components of the program which includes, but is not limited to, successful ratings on the Teaching Performance Rubric and the Teaching Dispositions Rubric as well as fulfilling all other department requirements or expectations. Students must attain a minimum of C+ in student teaching to be eligible for a teaching certificate that is issued by the State of New Jersey.

Suggested First-Year Sequences: Early Childhood Education (*Consult with a departmental advisor to make appropriate selections*)

Early Childhood Education and Art

Fall

FSP First Seminar
AAV 111/Drawing I
MAT 105/Mathematical Structures and Algorithms for Educators I
ECE 102/Multicultural Children's Literature for Early Childhood

Spring

Academic Writing (if not exempt) *or* MAT 106
AAV 102/Visual Thinking
AAV 112/2-D
PHY 103/Physical, Earth, and Space Sciences *or* BIO 104/ Inquiries in the Life Sciences

Elementary and Early Childhood Education-4

Early Childhood Education and Biology

Fall

FSP First Seminar
BIO 185/Themes in Biology
CHE 201/General Chemistry I
MAT 127/Calculus A*

**If student is required to take pre-calculus (MAT 096), then ECE 102 should be taken in the fall semester in place of CHE 201, and CHE 201 should be taken in the spring semester.*

Spring

Academic Writing (if not exempt) *or* U.S. History *or* VPA course
PHY 103/Physical, Earth, and Space Sciences *or* BIO 104/ / Inquiries in the Life Sciences
CHE 202/General Chemistry II*
Biology Option—Organismal
MAT 105/Mathematical Structures and Algorithms for Educators I

**If student is required to take pre-calculus (MAT 096), then ECE 102 should be taken in the fall semester in place of CHE 201, and CHE 201 should be taken in the spring semester.*

Early Childhood Education and English

Fall

FSP First Seminar
LIT/LNG English program foundation course
MAT 105/Mathematical Structures and Algorithms for Educators I
PHY 103/Physical, Earth, and Space Sciences *or* BIO 104/ / Inquiries in the Life Sciences

Spring

Academic Writing (if not exempt) *or* English major course by advisement
LIT/LNG English program foundation course
MAT 106/Mathematical Structures and Algorithms for Educators II
PHY 103/Physical, Earth, and Space Sciences *or* BIO 104/ / Inquiries in the Life Sciences

Early Childhood Education and History

Fall

FSP First Seminar
MAT 105/Mathematical Structures and Algorithms for Educators I
HIS 210/Craft of History
ECE 102/Multicultural Children's Literature for Early Childhood

Spring

Academic Writing (if not exempt) *or* MAT 106
Any HIS 100-level course
HIS 260/Themes in American History
PHY 103/Physical, Earth, and Space Sciences *or* BIO 104/ / Inquiries in the Life Sciences

Early Childhood Education and Mathematics

Fall

FSP First Seminar
MAT 127/Calculus A
MAT 105/Mathematical Structures and Algorithms for Educators
ECE 102/Multicultural Children's Literature for Early Childhood

Elementary and Early Childhood Education-5

Spring

Academic Writing (if not exempt) *or* Liberal Learning (gender and/or global)
MAT 128/Calculus B
STA 215/Statistical Inference
MAT 099/Orientation to Mathematics and Statistics
PHY 103/Physical, Earth, and Space Sciences

Early Childhood Education and iSTEM

Fall

FSP First Seminar
TST 161/Creative Design
MAT 127/Calculus A or ETE 131/Engineering Math (by iSTEM advisement)
ECE 102/Multicultural Children's Literature for Early Childhood Education

Spring

Academic Writing (if not exempt) *or* Liberal Learning (gender and/or global)
MAT 105/Mathematical Structures and Algorithms for Educators I *or* MAT 200 for
Math specialization
Science Option (by iSTEM advisement)
ETE 261/Multimedia Design

Early Childhood Education and Music

Fall

FSP First Seminar
ECE 102/Multicultural Children's Literature for Early Childhood Education
MUS 261/Musicianship I
MUS 251/Music of Our Diverse World
MUS 200-224 *or* MUS 300-324
Large Ensemble

Spring

Academic Writing (if not exempt) *or* free elective
MAT 105/Mathematical Structures and Algorithms for Educators I
MUS 262/Musicianship II
MUS 111/Keyboard Skills I
MUS 200-224 *or* MUS 300-324
Large Ensemble

Early Childhood Education and Psychology

Fall

FSP First Seminar
PSY 101/General Psychology
MAT 105/Mathematical Structures and Algorithms for Educators I
ECE 102/Multicultural Children's Literature for Early Childhood Education

Spring

Academic Writing (if not exempt) *or* free elective
PSY 121/Methods and Tools of Psychology
Psychology Foundations Course 1*
PHY 103/Physical, Earth, and Space Sciences *or* BIO 104/ / Inquiries in the Life Sciences

* Students should consult their Early Childhood Education advisor before choosing PSY 220 since they may want ECE 201 (which is required for the Early Childhood Education major) in place of PSY 220.

Elementary and Early Childhood Education-6

Early Childhood Education and Sociology

Fall

FSP First Seminar
SOC 101/Introduction to Sociology
MAT 105/Mathematical Structures and Algorithms for Educators I
ECE 102/Multicultural Children's Literature for Early Childhood

Spring

Academic Writing (if not exempt) *or* free elective
Sociology elective
PHY 103/Physical, Earth, and Space Sciences *or* BIO 104/ / Inquiries in the Life Sciences
STA 115 or 215/Statistical Inference

Early Childhood Education and Spanish

Fall

FSP First Seminar
SPA 203 or SPA 210/Intermediate Oral Proficiency *or* Spanish for Heritage Speakers
SPA 211/Composition and Grammar Review
ECE 102/Multicultural Children's Literature for Early Childhood Spring
Academic Writing (if not exempt) *or* MAT 105
PHY 103/Physical, Earth, and Space Sciences
SPA 215/Spanish Phonetics
SPA 216 *or* SPA 217/Current Events in the Spanish Speaking World *or* Introduction to Hispanic Culture
ECE 202/Theories and Practices of Early Childhood Education

Early Childhood and Women's and Gender Studies (With an emphasis in History and English)

Fall

FSP First Seminar
MAT 105/Mathematical Structures and Algorithms for Educators I
WGS 200/Women, Culture, and Society
PHY 103/Physical, Earth, and Space Sciences *or* BIO 104/ Inquiries in the Life Sciences

Spring

Academic Writing (if not exempt) *or* free elective
WGS English elective
MAT 106/Mathematical Structures and Algorithms for Educators II
PHY 103/Physical, Earth, and Space Sciences *or* BIO 104/ / Inquiries in the Life Sciences

Elementary Education

Elementary school teachers must have a broad academic background as well as practical understanding of the elementary school curriculum. Therefore, they are required to take two majors: one in education and the other in a subject matter (e.g., history, English, mathematics, etc.), along with a broad range of liberal learning courses. Students may also develop an interdisciplinary Self-Designed Major. Consult the section of this Undergraduate Bulletin for the requirements for the Self-Designed Major. Students choosing the Self-Designed Major also must meet the NJ State Standards for Teachers. Students who wish to explore this option should meet with the chair of the Elementary/Early Childhood Department as well as coordinator of the Self-Designed Major.

During their first year at the College, students planning to be elementary school teachers take liberal learning courses as well as courses in their second major. Beginning in their sophomore

Elementary and Early Childhood Education-7

year, students take elementary education courses that allow them to observe and participate in elementary classrooms in rural, suburban and urban contexts. During these courses, students learn about child and adolescent development and develop skills in the teaching of math, science and literacy. In their junior year, they take advanced pedagogy courses in literacy, social studies/multicultural education, and integrated learning. In their senior year, they student teach in an elementary school under the guidance of a classroom teacher and conduct an inquiry project related to their student teaching experience in conjunction with the senior capstone course. Elementary education majors with a second major in a content discipline (math, biology, history, English, iSTEM) may also seek endorsement for middle school certification upon completion of all program requirements and after passing the appropriate Praxis II content exam(s). Global student teaching is also available during either the fall or the spring semester of a student's senior year. Student teaching is available in locations such as South Africa, Spain, Croatia, Italy, France, Switzerland, the Hague, and Thailand. The global teaching program is jointly supervised by faculty from The College of New Jersey and the host institution. Students spend seven weeks at an American school abroad and finish their semester at a local elementary school in New Jersey.

Students should consult with their departmental advisors in both the education and second major departments in planning their programs. These plans should take into account requirements for the second major, liberal learning, the professional education major, and state certification. The department requires that students visit both the education advisor and the subject matter major advisor each semester. This is the responsibility of the student, as requirements and course offerings are subject to change.

Program Entrance, Retention, and Exit Standards: Elementary Education

Every major program at the College has set standards for allowing students to remain in that program, to transfer within the College from one program to another, and to graduate from a program. The following are the standards for Elementary Education:

- Retention in the program is based on the following performance standards in these “critical content courses”: A grade of C or better is required for all pre-requisite courses: MAT 105, 106 PHY 103, and BIO104. A grade of C+ or better is required in ELE 201 and RAL 221, RAL 225, MST 202, MTT 202 .A minimum grade of C+ is required for all components of ACB (ELE 301, SOM 203, and RAL 321)and Senior Student Teaching (ELE 490 and ELE 498).
- Students who have taken any of the above courses two times without earning the requisite grades may be dismissed from the program. Any course being used as a departmentally approved substitute for one of the above required courses must also meet the minimum grade requirement, including transfer credit.
- Admission to the Advanced Core Block requires a 3.0 GPA, the recommendation of the student's advisor, and successful completion of the following courses: MAT 105, MAT 106, PHY 103, BIO 104, ELE 201, RAL 221, MST 202, MTT 202, and three courses from the student's second major. In addition to the G.P.A, requirement, students must also demonstrate minimum proficiency on a State approved test of basic skills, such as the S.A.T., ACT, or Praxis Core (not the same test as the Praxis I & II), prior to being enrolled in ACB.
- Transfer into the program from another program within the College is based upon the following performance standards in these foundation courses: A grade of C+ or better in ELE 201 and RAL 221, achieving a GPA of 2.75, and the required grade in the foundations and critical content courses in the second major.
- Admission to student teaching requires a GPA of 3.0 prior to the start of the student teaching semester and satisfactory ratings on the Teacher Performance and Teacher

Elementary and Early Childhood Education-8

Disposition Assessments. In addition, all students must be in compliance with the professional standards as outlined in the Teacher Dispositions Rubric.

- Graduation requires a GPA of 3.0; completing all courses in the education major; completing all courses and meeting all standards in the second major; and fulfilling all liberal learning requirements and earning a minimum of 32 course units. Students must attain a minimum of C+ in student teaching to be eligible for a teaching certificate.

The Department of Elementary and Early Childhood Education maintains the right and the responsibility to dismiss students from the major who have not made satisfactory progress completing the major components of the program which includes, but is not limited to, successful ratings on the Teaching Performance Rubric and the Teaching Dispositions Rubric as well as fulfilling all other department requirements or expectations. Students must attain a minimum of C+ in student teaching to be eligible for a teaching certificate that is issued by the State of New Jersey.

Suggested First-Year Sequence: Elementary Education (*Consult with a departmental advisor to make appropriate selections*)

Elementary or Early Childhood Education (Urban Option): A five-year program preparing teachers, culminating in a master's degree and eligibility for both K-6 and ESL certifications

The integrated Bachelor's and Master of Arts in Teaching program (Urban Education Option) is designed for students who have completed high school and who have not yet earned a bachelor's degree. The program is based on the School of Education's conceptual framework for preparing exemplary professionals. All programs and all courses reflect state and national standards, with special emphasis on the New Jersey Common Core and Next Generation Science Standards. Any students seeking additional endorsements or teaching certificates beyond what is specifically awarded by their academic program should contact the State of New Jersey Department of Education directly for details about any additional courses or standardized tests that may be required.

Effective urban teachers must have a broad background of knowledge. In addition to providing the specific training in pedagogy, the College seeks to enable each teacher candidate to acquire a liberal education. The urban specialization curriculum is designed to increase knowledge in specific areas as well as to prepare candidates for future teaching. Students take education courses that allow them to observe and participate in PreK, elementary, and possibly middle school classrooms in urban contexts. During these courses, students learn about children's literature and child and adolescent development, and develop skills in the teaching of math, science and literacy. During all coursework and field experiences, students participate in activities and gain experience in planning, organizing, and assessing the learning experiences of school children. Students should consult with their departmental advisors in both the education and second major departments in planning their programs. These plans should take into account requirements for the second major, liberal learning, the professional education major, and state certification. The department requires that students visit both the education advisor and the subject matter major advisor each semester. This is the responsibility of the student, as requirements and course offerings are subject to change.

Students will earn a bachelor's degree without teacher certification at the end of their fourth year. The bachelor's degree will have a dual major: a liberal arts and sciences major (English, mathematics, history, biology, or iSTEM; other majors may be selected by advisement only) and elementary education. The course of study continues through the summer following the completion of the undergraduate portion of the curriculum and culminates with the student earning a master's degree in elementary or early childhood education and eligibility for New Jersey certification in teaching English Language Learners and elementary, early childhood, or middle school education (upon completion of the content and Praxis II requirements for middle

Elementary and Early Childhood Education-12

school endorsement). Students will need to meet all requirements of The College of New Jersey and the School of Education at the end of the fourth year in order to be admitted to the fifth year.

Urban elementary teachers must have an extensive academic background as well as practical understanding of the elementary school curricula. Therefore, along with their two majors, students must take a broad range of liberal learning courses. In addition, the courses of study for the urban elementary program include the following foundation courses and field experiences:

1. *The Foundation Courses*: Introduction to Urban Education, Child and Adolescent Growth and Development, Literacy, Math and Science methods each includes a full-day classroom practicum. Students in the Urban Education program have the additional requirement of demonstrating foreign language proficiency to at least the 103 level.
2. *Internship I* builds on the basic material offered in the foundation courses and includes work on differentiating instruction, integrating technology, long-term curriculum planning, reading and writing across the curriculum, and teaching for social justice. Admission to Internship I occurs when a student completes specific courses, has at least a 3.0 grade point average, and is recommended by foundation course faculty members for advanced work.
3. The student teaching experience (*Internship II*) provides students the opportunity to participate in a full semester of supervised classroom teaching. Students generally are clustered in small groups at professional development school sites located within a 30 mile radius of the College. Students need to provide their own transportation to these sites. Global student teaching is also available in such locations as South Africa, Spain, Italy, France, Switzerland, the Hague, and Thailand. Global sites change often. Global programs are available in both fall and spring semesters. The global teaching program is jointly supervised by faculty from The College of New Jersey and the host institution.

In addition, three other courses (ELE 300 Urban Schools Seminar, ELE 302 Introduction to Teacher Research, and ELE 515 Conflict Resolution in Education) have been developed specifically for students in the Urban Education option within the major. These courses connect learning in the classroom to practice in the field. These courses are elective but closely connected to the urban program.

Academic Regulations: Elementary and Early Childhood Education (Urban Education Option)

The Department of Elementary and Early Childhood Education maintains the right and the responsibility to dismiss students from the major who have not made satisfactory progress completing the major components of the program which includes successful ratings on the Teaching Performance Rubric and the Teaching Dispositions Rubric as well as fulfilling all other department requirements or expectations.

- In compliance with the State of New Jersey's regulations, a student must have a grade point average of 3.0 prior to enrolling in the pre-professional experience block of courses. At the completion of the third year of study, the student's grade point average will be assessed to determine if the standard for graduate study, as part of the five-year program at TCNJ, will be met (overall GPA of 3.0). Students must repeat a required departmental or professional education course in which a grade of D or F has been received. Such a course may be repeated only once. In the case of PHY 103, BIO 104, MAT 105, MAT 106, the minimum grade requirement is a C. Students unable to meet departmental criteria as noted will be dismissed from the department. Furthermore, prior to entry into the fourth year of study, the student must demonstrate

Elementary and Early Childhood Education-13

a passing score on a State approved test of basic skills, such as the SAT, ACT, or Praxis Core (not the same test as the Praxis I & II).

Program Entrance, Retention, and Exit Standards: Elementary and Early Childhood Education (Urban Education Option)

Every major program at the College has set standards for allowing students to remain in that program, to transfer within the College from one program to another, and to graduate from a program. The following are the standards for Elementary Education/Early Childhood (Urban Education):

- Retention in the program is based on the following performance standards in these “critical content courses”: A grade of C+ or better in ELE 203, ELE 201 or ECE 201/202, RAL 221/222, ECE 102, SOM 203, MST 202, and MTT 202 and achieving the required grade of C in the foundations and critical content courses in the second major. In addition, students must receive grades of C or better in order to demonstrate language proficiency in each of their foreign language courses.
- Students who have taken any of the above courses two times without earning the requisite grades will be dismissed from the program. Any course used as a departmentally approved substitute for any required course must also meet the minimum grade requirement.
- For entry into the 4th year, students must demonstrate a passing score on a state approved test of basic skills such as the SAT, ACT, or Praxis Core.
- At the end of their 4th year, students must have a minimum GPA of 3.0 for admission to graduate study at TCNJ. It is important to note that after the 4th year, students will refer to the Graduate School Bulletin and adhere to the requirements set forth in that bulletin.
- Admission to Internship I requires a 3.0 GPA and the recommendation of the student’s advisor.
- Transfer into the program from another program within the College is based upon the following performance standards in these foundation courses: A grade of C+ or better in ELE 203 and ECE 102. They must also achieve a minimum GPA of 2.75 and the required grade in the foundations and critical content courses in the subject matter major.
- Admission to Internship II (student teaching) requires a GPA of 3.0 and the recommendation of the student’s advisor. In addition, the student must attain satisfactory ratings on the Teacher Performance and Teacher Dispositions Assessment. All students must be in compliance with the professional standards as outlined in the Teacher Dispositions Rubric.
- Graduation requires a GPA of 3.0; completion of all courses in the education major; completion of all courses and meeting all standards in the subject matter major; and fulfilling all liberal learning requirements.

The Department of Elementary and Early Childhood Education maintains the right and the responsibility to dismiss students from the major who have not made satisfactory progress completing the major components of the program or fulfilling department requirements or expectations.

Elementary and Early Childhood Education-14

Suggested First-Year Sequences: Elementary Education (Urban Education) (*Consult with a departmental advisor to make appropriate selections*)

Elementary (Urban Education) and Biology

Fall

FSP First Seminar
BIO 185/Themes in Biology
CHE 201/General Chemistry I
MAT 127/Calculus A*

Spring

Academic Writing (if not exempt) *or* Introduction to Urban Education
PHY 103/Physical, Earth, and Space Sciences *or* BIO 104/ / Inquiries in the Life Sciences
CHE 202/General Chemistry II*
Biology Option—Organismal
MAT 105/Mathematical Structures and Algorithms for Educators I

**If student is required to take pre-calculus (MAT 096), then ECE 102 should be taken in the fall semester in place of CHE 201, and CHE 201 should be taken in the spring semester.*

Elementary (Urban Education) and English

Fall

FSP First Seminar
LIT/LNG English program foundation course
MAT 105/Mathematical Structures and Algorithms for Educators I
PHY 103/Physical, Earth, and Space Sciences *or* BIO 104/ / Inquiries in the Life Sciences

Spring

Academic Writing (if not exempt) *or* Introduction to Urban Education
LIT/LNG English program foundation course
MAT 106/Mathematical Structures and Algorithms for Educators II
PHY 103/Physical, Earth, and Space Sciences *or* BIO 104/ / Inquiries in the Life Sciences

Elementary (Urban Education) and History

Fall

FSP First Seminar
MAT 105/Mathematical Structures and Algorithms for Educators I
HIS 210/Craft of History
PHY 103/Physical, Earth, and Space Sciences *or* BIO 104/ / Inquiries in the Life Sciences

Spring

Academic Writing (if not exempt) *or* ELE 203/Intro to Urban Education
Any HIS 100-level course
HIS 260/Themes in American History
RAL 225/Multicultural Children's Literature

Elementary (Urban Education) and Mathematics

Fall

FSP First Seminar
MAT 127/Calculus A
MAT 200/Discrete Mathematics
ECE 102/ Multicultural Children's Literature

Elementary and Early Childhood Education-15

Spring

Academic Writing (if not exempt) *or* ELE 203/Intro to Urban Education

MAT 128/Calculus B

STA 215/Statistical Inference

MAT 099/Orientation to Mathematics and Statistics

PHY 103/Physical, Earth, and Space Sciences

Elementary (Urban Education) and iSTEM

Fall

FSP First Seminar

TST 161/Creative Design

MAT 127/Calculus A

ECE 102/Multicultural Children's Literature

Spring

Academic Writing (if not exempt) *or* ELE 203/Intro to Urban Education

MAT 105/Mathematical Structures and Algorithms for Educators I (*or* MAT 200 for Math specialization)

Science Option by advisement

ETE 261/Multimedia Design
